Bengaluru, Karnataka

PROFILE SUMMARY

Frontend Web Developer with 4+ years of experience building production React applications. Strong in API-driven UI development, performance optimization, and responsive component architecture. Experienced in translating wireframes into maintainable, scalable frontend implementations.

SKILLS

- **Frontend:** React.js, Redux Toolkit, React Router, JavaScript (ES6+), TypeScript, HTML5, CSS3
- **UI Libraries:** Tailwind CSS, Material UI, Bootstrap
- **APIs & Backend Integration:** REST API Integration, Axios, React Query (TanStack Query), Firebase Authentication, Firestore
- **Version Control & Deployment:** Git, GitHub, Bitbucket, Netlify, Vercel

WORK EXPERIENCE

Web Developer, Axzora Ltd.

2023 - 2025

- Developed and implemented the frontend structure for production React applications, delivering fully responsive interfaces optimized across mobile, tablet, and desktop breakpoints.
- Integrated REST APIs with centralized error handling and client-side caching, reducing average page load times by ~30% and minimizing redundant network requests
- Reduced unnecessary component re-renders by applying memoization (useMemo, useCallback) in performance-critical React components.
- Worked within an existing TypeScript-based React codebase, contributing typed components and improving type safety during feature development.
- Built and maintained a reusable component library with consistent patterns, accelerating feature delivery and improving UI consistency across modules.
- Worked closely with designers and backend developers to implement frontend features according to specifications and timelines.

Trainee Software Engineer, Goa Electronics Limited

2021 - 2022

- Developed and maintained Java-based modules for Goa Services / Goa Online, a high-traffic government public service platform.
- Optimized PostgreSQL queries and database operations to improve backend performance and data retrieval for critical government workflows.
- Created and deployed 15+ Jasper and Crystal Reports used across multiple government departments for operational and administrative reporting.
- Worked with senior engineers on module enhancements, code reviews, and feature extensions while following enterprise-level coding standards.

Frontend Web Developer, Webware.io

2020

- Developed 10+ responsive, cross-browser websites using HTML5, CSS3, JavaScript, and Bootstrap, translating wireframes into production-ready UI.
 - Built custom UI components with advanced CSS techniques ensuring pixel-perfect implementation and consistent behavior across browsers and device sizes
 - Delivered client-facing frontend features within defined timelines while adhering to design specifications.
-

EDUCATION

GOA COLLEGE OF ENGINEERING, FARMAGUDI-PONDA

- Bachelor of Engineering in Computer Engineering
-

PERSONAL PROJECTS

Netflix Clone

- Developed a Netflix-inspired web application using **React.js, HTML, and CSS**, replicating the core UI and user experience of the streaming platform.
- Integrated the TMDb API to dynamically fetch movie data, display details, and play movie trailers.
- Implemented Firebase Authentication for user sign-up/sign-in and Firestore for managing user data.
- Deployed the project on Netlify for seamless hosting and accessibility.
- **Live:** <https://cool-clafoutis-3356de.netlify.app/>

Admin-Dashboard-Clone

- Built a React-based admin dashboard using Tailwind CSS and Recharts, focusing on clean UI structure, reusable components, and responsive layout design.
- Deployed the project on Netlify with a production build pipeline for reliable and fast hosting.
- **Live:** <https://admin-dashboard-tw.netlify.app/>

Modern UI / UX Landing Page (React + Tailwind CSS)

- Built a modern, responsive React landing page using Tailwind CSS with a strong focus on visual hierarchy, spacing, and dark-theme UI consistency.
 - Implemented reusable UI sections (hero, features, pricing, testimonials) using component-based architecture and utility-first styling.
 - Ensured cross-device responsiveness and layout stability using Tailwind breakpoints and flexible grid systems.
 - **Live:** <https://modern-ui-ux-project.netlify.app>
-

CERTIFICATIONS & INTERNSHIPS

- Fundamentals of Digital Marketing – Google Digital Unlocked (2021)
- Advanced JavaScript (ES6+ & Asynchronous Programming) — 2025
- **Internship:** Digital Marketing & Web Development Intern – Brushflicks, Verna Goa (45 days)
